

Question:

Is there a way to enable/disable the logging feature in ArchestrA Logger (SMC-> PC56-OPC)?

Answer:

You can enable/disable the logging feature in ArchestrA Logger and control the logging features by following the below steps:

Below are few screen shots of the SMC on PC56-OPC :

Under Log View-> Default Group -> Local

Right click on Local icon -> then click on “Configure”

ArchestrA System Management Console (PC56-D378463393) Log Viewer\Default Group\Local
