DF1 Master/Slave to Honeywell DE Master Gateway
5106-DFCM-DEM

The DFCM-DEM modules are the ideal solution for the many applications where DF1 connectivity can be used to integrate Honeywell DE devices into a system. The DF1 gateway is a powerful module designed with both Master and Slave support, enabling easy connection to Rockwell Automation PLCs (CLX, SLC, PLC, CPLX, and similar devices). In combination with the Honeywell DE device support, the module provides a very powerful interface to the many Honeywell DE devices which are in use in the industrial marketplace today. Applications for the module are found in most industries, especially Manufacturing, Oil and Gas, Electrical Power and Food Processing.

How to Contact Us: Sales and Support
All ProSoft Technology® products are backed with unlimited technical support. Contact our worldwide Technical Support team directly by phone or email:

DF1 Master/Slave to Honeywell DE Master Gateway
5106/5126-DFCM-DEM(2)

The ProLinx DF1 Master/Slave to Honeywell DE Master Gateway creates a powerful connection between devices on a DF1 network and Honeywell DE devices. This stand-alone DIN-rail mounted protocol gateway provides one serial port and eight Honeywell DE channels.

The DF1 protocol driver supports Master or Slave implementations of the protocol on each DF1 port. All DF1 ports are individually configurable.

The DEM protocol driver is designed to provide a tightly integrated communications interface between other protocols of the ProLinx platform and the Honeywell DE instruments. Compatible DE devices include a large array of field devices including pressure, temperature, metering, and many other instruments.

DF1 Master/Slave
The DF1 Master/Slave Protocol driver provides extensive support for both Master and Slave implementations of the protocol. The serial port on the gateway is user-configurable to support the DF1 protocol (Master or Slave, Error Checking, Baud rate, etc).

General Parameters
<table>
<thead>
<tr>
<th>Communication parameters</th>
<th>Local Station ID: 0 to 254</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Ports 1 to 3 Baud Rate: 110 to 115K baud</td>
</tr>
<tr>
<td></td>
<td>Stop Bits: 1</td>
</tr>
<tr>
<td></td>
<td>Data Size: 8 bits</td>
</tr>
<tr>
<td></td>
<td>Parity: None, Even, Odd</td>
</tr>
<tr>
<td></td>
<td>RTS Timing delays: 0 to 65535 ms</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Error Checking</th>
<th>BCC and CRC</th>
</tr>
</thead>
<tbody>
<tr>
<td>Miscellaneous</td>
<td>Full hardware handshaking control, providing radio, smart modem and Multi-drop support Floating point data supported</td>
</tr>
</tbody>
</table>

DF1 Master Protocol Specifications
The ports on the module can be individually configured as Master ports. When configured in master mode, the DFCM module is capable of reading and writing data to remote DF1 devices.

DF1 Master Driver
<table>
<thead>
<tr>
<th>DF1 Modes</th>
<th>Full-Duplex – Master (Module generates commands)</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Half-Duplex – Polling</td>
</tr>
</tbody>
</table>

| Command List | Up to 100 commands per Master port, each fully-configurable for function, slave address, register to/from addressing and word/bit count |

| Polling of Command List | User-configurable polling of commands, including disabled, continuous, and on change of data (write only) |
**DF1 Slave Protocol Specifications**
The ports on the module can be individually configured to support the Slave mode of the DF1 protocol. When in slave mode, the module can accept DF1 commands from a master to read/write data stored in the module’s internal registers.

**DF1 Slave Driver**
- **DF1 Modes**
  - Full Duplex – Slave (not peer mode)
  - Half Duplex – Polled
- **Configurable parameters per slave port**
  - Data Table File Start (File N[x] 0 to 999)
  - Data Table File Size (1 to 1000 words)
  - Data Table location in database (0 to 3999)

**Honeywell DE Master**
The ProLinx DEM Protocol Driver is designed to interface with up to 8 DE devices. Data is exchanged between the DE instruments and the driver using the internal database contained in the DEM module.

**DE Communications**
- Built in accordance with the Honeywell DE specification
- Supports up to 8 single PV transmitters, 2 multivariable transmitters with 4 PVs each, or a mix of single and multivariable equaling 8 input channels
- Instrument database mismatch verification
- Interfaces directly to Honeywell Field Terminal Assembly (FTA) with ProSoft-supplied cable
- Supports redundant and non-redundant FTA implementations
- Single cable connection from DEM module to FTA

**Physical Specifications**
- **Power Source**
  - External 24 VDC source connection on the front of the DEM module provides instrument loop power
- **LEDs for Visual Module Status**
  - DE Active
  - DE Error

**General Specifications**
The ProLinx Communication Modules provide connectivity for two or more dissimilar network types. The modules, encased in sturdy extruded aluminum, are stand-alone DIN-rail mounted protocol gateways, providing communication between many of the most widely used protocols in industrial automation today.

**Hardware Specifications**

<table>
<thead>
<tr>
<th>Specification</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Power Supply</td>
<td>24 VDC nominal</td>
</tr>
<tr>
<td></td>
<td>18 to 36 VDC allowed</td>
</tr>
<tr>
<td></td>
<td>Positive, Negative, GND Terminals</td>
</tr>
<tr>
<td></td>
<td>2.5 mm screwdriver blade</td>
</tr>
<tr>
<td>Current Load</td>
<td>500 mA max@ 24 VDC</td>
</tr>
<tr>
<td>Operating Temperature</td>
<td>–20 to 50°C (–4 to 122°F)</td>
</tr>
<tr>
<td>Storage Temperature</td>
<td>–40 to 85°C (–40 to 185°F)</td>
</tr>
<tr>
<td>Relative Humidity</td>
<td>5 to 95% (non-condensing)</td>
</tr>
<tr>
<td>Dimensions</td>
<td>Standard: 5.20H x 2.07W x 4.52D in. (13.2cmH x 5.25cmW x 11.48cmD)</td>

**ProSoft Configuration Builder**
ProSoft Configuration Builder (PCB) provides a quick and easy way to manage module configuration files customized to meet your application needs. PCB is not only a powerful solution for new configuration files, but also allows you to import information from previously installed (known working) configurations to new projects.

**Additional Products**
ProSoft Technology offers a full complement of hardware and software solutions for a wide variety of industrial communication platforms.

**Ordering Information**
To order this product, please use the following:

**5106-DFCM-DEM**
DF1 Master/Slave to Honeywell DE Master Gateway

To place an order, please contact your local ProSoft Technology distributor. For a list of ProSoft distributors near you, go to [http://www.prosoft-technology.com](http://www.prosoft-technology.com)
